NOTE A:
OHIO RIVER NO WAKE ZONE
All Waters Of The Ohio River Between The Daniel Carter Beard (Big Mac) Bridge And The Brent Spence (I-75/71) Bridge Are A Designated No Wake/Idle Speed Zone.

In this zone, all recreational vessels will be required to travel at the slowest possible speed where steerage can be maintained. This accommodates for variance in speeds required by differing flow conditions of the river, direction of travel and general design of the craft being operated.

For Further information, please call the Ohio Department of Natural Resources, Division of Watercraft (513) 851-1755
